Simultaneous Rate

Simultaneous Rate: \$75.00. The rate is applicable as follows:
When a Mortgagee Policy is issued in conjunction with an Owner Policy covering the identical property, the policies qualify for the Simultaneous Rate. The \$75.00 rate is added to the Owner Policy premium rate (including any owner endorsements) in order to issue the Mortgagee Policy in an amount less than the Owner Policy.

- Note 1. Any endorsements requested by the Lender are calculated and added to the Mortgagee Policy.
- Note 2. Any endorsements requested by the Owner are calculated and added to the Owner Policy.

**One-to-Four Family Residential Mortgagee
Policy Endorsement Rate**
(For Standard Mortgagee Policies)

This is a streamlined, all-inclusive premium for all residential endorsements needed in a residential policy (except for zoning) and the deletion of the survey exception based upon a residential survey affidavit for a standard residential Mortgagee Policy. The endorsement premium is \$125.00 which is in addition to the standard rates above.

Refinance Rates

The Refinance Rate for Mortgagee Policies is 60% of the applicable loan policy. Mortgagee endorsement charges are calculated at the filed rate. Refinance rates are available for a period of three (3) years.

Centralized Refinance Rates

The centralized refinance rate applies only to Mortgagee Policies which are not in excess of \$1,500,000.00 which insure a loan which is secured by a mortgage encumbering real property improved with a one-to-four family residential dwelling unit. The loan proceeds must be used to refinance an existing loan secured by the same Property. The loan transaction must be initiated and coordinated through a centralized point of contact by the originating lender and forwarded to a CATIC agent through a centralized point of contact at CATIC's headquarters in Connecticut.

This centralized refinance rate is available upon request with a showing of an existing Mortgagee Policy. The refinance rate is calculated at 60% of the base premium of the original Mortgagee Policy currently in force. Regular mortgagee rates apply to the amount of the new loan in excess of the original Mortgagee Policy amount. Mortgagee endorsement charges are calculated at the filed rate. Centralized refinance rates are available for a period of ten (10) years. Centralized refinance rates are available upon request when the existing Mortgagee Policy will be paid off with the current transaction and a new policy issued in its place.

Expanded Policy Premium Rates

The CATIC Expanded Policy with additional special protection is issued only on: Improved, one-to-four family residential dwellings as-built for at least one year. The Expanded Policy is not available for manufactured Housing, raw land, construction loans, home equity loans or other loans with provisions for subsequent recorded modifications or any commercial properties.

The Expanded Mortgagee Policy rate is the Standard Mortgagee base premium rate plus 10% (minimum \$25.00) plus \$75.00 for the additional coverages in the Expanded Mortgagee Policy jacket (Combined Endorsement Rate or CER) plus the \$50.00 survey affidavit charge. Additional requested endorsements are available at the regular endorsement rate.

This Expanded Mortgagee rate applies to Expanded Mortgagee and Short Form Expanded Mortgagee Policies. Additional requested endorsements are available at the regular endorsement rate.

The Expanded Owner Policy rate is the Standard Owner base premium rate plus 10% (minimum \$25.00) plus \$75.00 for the additional coverages in the Expanded Owner Policy jacket (Combined Endorsement Rate or CER). Additional requested endorsements are available at the regular endorsement rate.

Short Form Standard Mortgage Policies

It is a condensed version of the Standard ALTA policy with certain exceptions deleted and affirmative coverages included. The Standard Short Form Mortgagee Policy may be issued for the same loan policies that a Standard ALTA is issued. The Short Form is based on the usual title search and underwriting procedures; however, contact the New Hampshire Office for guidance on preparation.

Short Form Standard Mortgagee Policy rate is calculated as follows: Standard Mortgagee premium rate plus \$75.00 for the built-in affirmative coverages on Schedule B plus the \$50.00 Survey Affidavit charge. (Calculate: Standard Base Mortgagee rate plus \$125.00 = Short Form Expanded Mortgagee Policy Rate.) Also, endorsements are charged at \$25.00 for each endorsement checked as applicable.

The Short Form Expanded Policy is based on the usual title search and underwriting procedures; however, contact the CATIC New Hampshire Office for guidance on preparation.
